Prepare your students for an increasingly global future as you share the National Geographic Experience!

» Real-life experiences with over 30 National Geographic Explorers, including videos about their research

» Active learning for active students with over 200 interactive whiteboard lessons, map and photo labs, tools to create media presentations, and more

» Accessible, scaffolded content supporting geographic discovery for every student

» Written at middle school readability
The National Geographic Society mission, maps, images, and research resound throughout the program!

12 Regions in Separate Modular Teacher Editions

» Learning for Active Students

• Students engage with maps, graphs, and charts through the lab with every lesson
• Before You Move On tests comprehension
• Students write answers to the map lab in their GeoJournals

Unit 11 Opener, Southeast Asia

National Geographic Experience

• Each unit opener features a National Geographic Explorer
• Students link to video clips to build background
• Online World Atlas provides maps of every region
Online Student Edition

- Narrative text is provided both on-level and at modified readability
- Digital assets and resources are available at point-of-use
- Hot spots include rollovers, drop-down menus, and pop-ups
- Links to National Geographic photographs, Read Aloud Audio, or the Interactive Map Tool

Accessible Content Supports
Geographic Discovery

- Engaging maps, images, audio, and interactive lessons
- Each two-page lesson is clear, focused, and accessible to all students
- Up-to-date content and links to National Geographic engage learners
- TechTrek ties every lesson back to online resources on myNGconnect.com
- Map, photo, and vocabulary labs give students the chance to apply instruction
Student Resources

Eastern Hemisphere

Student Edition

- Engaging maps, images, audio, and interactive lessons
- Up-to-date content and links to National Geographic
- Clear and focused organization with two-page lessons

Online Student Edition

- Includes the nine regions taught in the Eastern Hemisphere curriculum
- Lessons engages with hands-on map activities in small groups or individually
- Essential Questions provides a focus for each chapter and support higher-order thinking
- National Geographic Explorers appear in every unit opener, in Explorer video clips, and in chapter lessons

Explore Europe

- Each unit opener features a National Geographic Explorer
- Students link to video clips about the Explorer from within the digital library
Western Hemisphere with Europe

Student Edition

- Includes regional units relevant to Western Hemisphere curriculum
- Students make inferences about their lives and lives of students in other countries
- Rich time lines provide a sense of ancient civilization

Online Student Edition

- Includes the six regions taught in the Western Hemisphere with Europe curriculum
- TechTrek in every lesson provides a guide to the technology resources available
- Every lesson includes an interactive whiteboard activity
- Includes three types of vocabulary: key, academic, and terms & names

Central America and the Caribbean

- Students meet National Geographic Explorers engaged in regionally relevant projects
- History and culture are introduced in the “Step into History” invitation
- The effects of the region’s geography on its economy and culture are highlighted
Integrated Technology at myNGconnect.com

Resources for Students

- Student eEdition with differentiated text, roll-overs, drop-down menus, and pop-ups
- Interactive Map Tool with different modes and filters
- Digital Library of videos, photos, and music
- Magazine Maker for creative multi-media
- Connect to NG for current events and research links
- Guided writing, writing templates, and rubrics

Students start their online experience

Students go to any page in the student book

The Digital Library includes GeoVideos, Explorer video clips, photos, and music

National Geographic Explorers introduce every unit

Students interact with maps, draw country borders, and use a click-and-draft tool to label country elements
Resources for Teachers

- Teacher’s eEdition
- Fast Forward! Core Content Presentations
- Online Lesson Planner
- Assessment
- Interactive Whiteboard GeoActivities with scripts
- Interactive Map Tool with scripts
- GeoVideo and Explorer video clips

Teachers start their online experience

Point-of-use hot links with every two-page spread

Select regions, states, and map modes to explore population density and language diversity

Maps and Map Labs bring cartography to the classroom

An interactive whiteboard activity is available for every lesson in the Student Edition
Modular Teacher’s Editions

Each region is packaged for the teacher in a discrete, easy-to-handle unit.

Teacher’s Editions

Student Edition page leaves plenty of room for teaching strategies

myNGconnect is relevant to every lesson

Students brainstorm new topics

One Whiteboard activity for every lesson

Clear, concise instruction path for every lesson

Differentiated instruction tips to engage every learner

Active students participate in an interview
Three Teacher’s Reference Guides

- One unique Reference Guide for each curriculum
- Includes Best Practices for Active Teaching
- Provides access to National Geographic Atlas
- Offers many supplemental resources such as Student Skills, World Religions, and Government and Economics handbooks

ExamView® CD-ROM

- Formal Assessment
- Quizzes and chapter tests also available in Spanish
- Chapter Tests written in on-level text and modified text
- Extra questions per chapter to form a test item bank

Find everything at myNGconnect!

- Teacher’s eEdition
- Digital assets available at point-of-use
- Core Content Presentations
- Videos, music, interviews, and photographs
- Online Lesson Planner
- Create, edit, organize, print, and email lesson plans and activities
- Assessment
- Interactive Whiteboard GeoActivities
